

WHAT'S HAPPENING ON TYLER STREET! June 2015 Issue 1

Street Lighting Initiative

We brought the street lighting issue in front of city council last year, who voted, unanimous, to accept it for study. The result: the street lighting initiative has been included in city planning and **\$200,000** has been approved in the city budget for Tyler.

What does this mean to the neighborhood? Grants are needed to fund the **streetscape** work, including money for new lighting for the north side of Tyler Street. A Streetscape Plan is required to apply for grants.

In April, our district was chosen by MassDevelopment (a state agency) as one of ten districts in the state to receive the Transformative Development Initiative(**TDI**), a 3 year program for economic development. Our next email will provide updates on TDI.

Thank you for being a member - this work cannot happen without you. It's time to renew your annual membership - before July 1, you'll save \$10. Membership forms can be downloaded from - www.tylerstreetpittsfield.com/membership.html

Thanks everyone - it's going to be another great year in Morningside with your help!
